

"There is a symbiosis between individuals and the earth. The better we feel about ourselves, the more we are able to help the environment. The healthier the environment, the better we feel."

"The coolest shade of 'green' is the sustainable choice."

Dayle Laing is a professional speaker, educator and author, who motivates people to select the 'coolest shade of green' for beautiful sustainable interior design that enhances their body, mind and spirit.

Dayle Laing Interior Designs Inc.

"I have the utmost respect for Dayle's extremely professional manner, her attention to detail, and her talent to consistently present in a logical and easily understandable manner. Her extremely well researched topics are at all times presented with exceptional visuals as well as examples of practical application. Dayle Laing is a dynamic speaker and I look forward to attending her future speaking engagements."

- Ready to go beyond 'replace your light bulb messages'?
- Confused by all the conflicting messages?
- Feeling that you want to make a difference but are unsure how you can?

Take the next step with Dayle's motivational talks on "The Coolest Shade of Green". Learn from a LEED® Accredited Professional how the green choice can be a beautiful one that nurtures body, mind & spirit *and* makes our carbon footprint more beneficial.

"Dayle, I can't begin to thank you enough for the wonderful seminar you "painstakingly" prepared and presented. I received so many compliments on the event itself and with always specific emphasis on your contribution. Your hard work paid off and I look forward to working with you again. Thanks again ...we couldn't have done it without you."

"I hired Dayle to present a seminar in our showroom on green upholstery fabrics; she delivered it with enthusiasm, passion and charm! Dayle made sure that all of my objectives were met in her presentation. Nothing but positive feedback from our clients was sent our way and we acquired new customers as a direct result from the seminar. Thanks again to Dayle for her advocacy on green products; her on-going research is a true benefit to our industry!"
